CO2 figures, P11D values, BIK% and MRRP pricing shown above are for a standard vehicle without any additional optional equipment. CO2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle, the P11D value and BIK%. The addition of optional extras could increase the certified CO2 emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the P11D value and the amount of Benefit in Kind (BIK) tax payable. For further information on CO2 and pricing for vehicles with optional equipment, please visit <https://www.citroen.co.uk/configurator.html>

The range and electric consumption figures mentioned comply with the WLTP test procedure, on the basis of which new vehicles are type approved from 1 September 2018. They may vary depending on actual conditions of use and on different factors such as : speed, thermal comfort on board the vehicle, driving style and outside temperature. The charging time depends in particular on the power of the charger on board the vehicle, the charging cable and the type and power of the charging station used.

*Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of, but not limited to, any changes in legislation and/or any changes by the government). Please see our Prices and Specs brochures or contact your local Citroën dealer for the most up-to-date prices and specification details for all models.

ë-C4 & C4 - STANDARD SPECIFICATION

Specification	YOU!	PLUS	MAX	ë-Series
Battery Electric Vehicle - unique to ë-C4				
Mode 3 charging cable with Type 2 connectors - for accelerated charging from wall boxes and dedicated public charging points	●		●	●
Heat Pump - controls vehicle temperature more efficiently and can increase real-world achieved range, particularly in colder conditions.	●		●	●
7.4 kW single-phase onboard charger	●		●	●
Remote temperature pre-conditioning (requires e-Remote Control service subscription - 1 year free trial as part of Connect PLUS pack)	●		●	●
Safety and Security				
Puncture repair kit with compressor	●	●	●	●
ABS	●	●	●	●

0-62mph (secs)	10	9.2
Standing 1000m (secs)	32.2	31.6
Range (miles - WLTP)		
Combined	219 - 221	257 - 260
Electricity consumption (Wh/mile)		
CO2 EMISSIONS at tailpipe (g/km) - WLTP - standard versions	0	0
WEIGHTS (kg)		
Kerb Weight	1561	1561
Mass in service	1675	1675
Gross vehicle weight	2020	2020
Max towing weight braked/unbraked	n/a	n/a
BRAKES	Ventilated front discs. Rear discs.	Ventilated front discs. Rear discs.
STEERING		
Turning circle between kerbs (m)	10.9	10.9
EXTERIOR DIMENSIONS (mm)		
Length	4360	4360
Width (excluding mirrors)	1800	1800
Height	1520	1520
Wheelbase	2670	2670
BOOT VOLUMES & DIMENSIONS		
Seats up - below parcel shelf max (litres VDA)	380	380
Max with seats folded	1250	1250

The range and electric consumption figures mentioned comply with the WLTP test procedure, on the basis of which new vehicles are type approved from 1 September 2018. They may vary depending on actual conditions of use and on different factors such as : speed, thermal comfort on board the vehicle, driving style and outside temperature. The charging time depends in particular on the power of the charger on board the vehicle, the charging cable and the type and power of the charging station used.

Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors: (including but not limited to) the accessories fitted (pre and post registration), variations in weather, driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures. These CO2 figures are used to calculate the Vehicle Excise Duty (VED) for the first registration of the vehicle. The CO2 figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification.

FURTHER INFORMATION

The On the Road MRRP featured includes the following:

Tax band	CO2 (g/km)	First Year VED	Annual Tax	First Reg. fee	Delivery Charge*	VAT @ 20% on Delivery	Total OTR Costs
A	0	£0.00	£0.00	£55.00	£750.00	£150.00	£955.00
B	1-50	£10.00	£180.00	£55.00	£750.00	£150.00	£965.00
C	51-75	£30.00	£180.00	£55.00	£750.00	£150.00	£985.00
D	76-90	£135.00	£180.00	£55.00	£750.00	£150.00	£1,090.00

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of, but not limited to, any changes in legislation and/or any changes by the government). Please see our Prices and Specs brochures or contact your local Citroën dealer for the most up-to-date prices and specification details for all models.

COMPREHENSIVE WARRANTY

Every new Citroën car offers the benefit of a three year* warranty package, plus a 12 year anti-perforation** warranty and a three year paint warranty.

* Two years' unlimited mileage manufacturer's warranty. No-fee customer option of one year's Dealer provided warranty, only on cars sourced from Citroën UK Limited. Note: Dealer provided warranty is limited to 60,000 miles for cars and 100,000 miles for light commercial vehicles (excluding motorhomes and other converted vehicles).

** Against all internal to external perforation to bodywork or underbody on condition the car undergoes an inspection by a Citroën franchised Dealer every two years from its fourth anniversary.

CITROEN ASSISTANCE

In response to a free telephone call in the UK, Citroën Assistance brings rapid expert roadside assistance to you in an emergency. It comes free of charge for a full year, from date of vehicle registration, and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both car and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required.

You can also purchase additional Citroën Assistance via your local Citroën dealer at any time. Citroën Assistance applies to incidents covered by the new vehicle warranty, and excludes non-vehicle faults, such as running out fuel or mis-fuelling, instances where keys have been locked inside the vehicle or lost/stolen, road traffic accidents and punctures/wheel changes.

TERMS AND CONDITIONS

Every endeavour has been made to ensure that the information, details and descriptions set out in this literature are correct, at the time of going to print.

We reserve the right to modify our vehicles price, specification (including colour), equipment, accessories and characteristics or to discontinue any model, without notice, at any time.

To avoid any misunderstandings you are advised to check with your Dealer the specification (including colour), equipment accessories and equipment relating to any vehicle and the exact cost and availability prior to ordering.
